State Housing Commissioner Stichman To Speak at Big City Meeting February 4; Newkirk Invites Other Experts to Attend

Volunteers Honor Chief Murphy With Purse for Services

Department Head Gives Entire Credit to Men; Cole Gives Talk on Benefits

A purse of money was presented to Fire Chief Joseph L. Murphy of Kingston by the Ulster County Volunteer Firemen's Association "as a token in evidence of the esteem and affection for you as a man and a fireman." The presentation, made on behalf of the association by President Robert A. Snyder, was made at the monthly meeting held Tuesday night at the city hall.

The meeting was attended by about 150 delegates and members of volunteer fire companies throughout Ulster county. In addition to paying tribute to Chief Murphy and transacting routine business, the firemen heard a talk on legal matters affecting them by Seth T. Cole, attorney for the New York State Firemen's Association, and participated in a lively discussion period which held the attention of those present until past 11 p. m.

Praises All Firemen

In acknowledging the gift, Chief Murphy said, "I didn't do anything. It was not I who saved buildings from fire destruction, but the men who worked under me, both paid and volunteer firemen."

The chief said that he has enjoyed every moment of the past 40 years, and that he values beyond any gift "the friendship and good will of the firemen of the city and county."

When he counted the money, he announced the sum as $100, which he said was "a wonderful gift. I can't find words to express my appreciation."

Chief Murphy said afterward that the gift came as a complete surprise to him. President Snyder, in making the presentation, said that there are "few if any who can equal or surpass your record as a firefighter. Because of your efficiency many a home in Kingston is still standing." He also said that Murphy was one of the mainstays of the Ulster County Firemen's Association.

Seth Cole added his congratulations to Chief Murphy, saying that while he was right in saying that it was the men under him who desire credit, it is a com-

Newkirk: No Pay Roll Authority; Connelly: No Opinion Asked

13 Passengers Hurt As Flames Damage Big Constellation

Craft Skids Into Snow at Boston Airport; Occupants Forced to Jump

Boston, Jan. 21 (AP)—Thirteen passengers were injured as they leaped from a big Eastern Airlines Lockheed Constellation today after the plane skidded into a snowbank and caught fire when it landed in early morning darkness at Logan International Airport.

The $1,000,000 airliner was almost completely consumed by the flames that spread from one of the four engines while 20 passengers and five crew members jumped or dropped 15 feet from a doorway on the opposite side into snowbanks. En route from Miami to Newark, the plane was rerouted first to New York and then to Boston because of stormy weather.

Flight Engineer Harold Coonley of Miami said ice on the runway and not enough braking surface caused the skid into the snowbank and, although Captain Merrill E. Thayer, also of Miami, cut his engines, there was a flash from one—far at the right, and flames raced over the big craft.

As the fire, spreading rapidly after a slow start, enveloped the right side of the craft, the passengers—aided by the crew—made their way out of a left front door. They were forced to drop or jump from the high exit—while the plane sat at a crazy angle against the snowbank.

The big ship was a mass of flames as the last crew members escaped. Conley said "there wasn't any panic" but "the fire was right at our backs when the last of us got out."

Those given hospital treatment included:

Henri Block, 37, a chemist, of 33 Riverside Drive, New York city, three fractured ribs;

His wife, Dora, fractured left leg;

Josephine Dresner, 32, an attorney of 18451 Beverly Road, Long Island City, N. Y., bruises and shock;

Alexander Molano, 5829 205th street, Bay Side, N. Y., fractured heel;

Meryle Prager, 411 West End avenue, New York, injuries unlisted;

Mildred Jenulis, 11 West 42nd street, New York, an electrologist, possible fracture of back and internal injuries;

Christopher De Groot, vice president Panagra (South American) Air Lines, 400 East 52nd street, New York, taken to Phillips House, Massachusetts General Hospital, where condition listed as "not serious."

An unidentified man, name withheld because of possible shock to his seriously ill father.

Among those given first aid, were:

Jansiz Amanian, 45 East 17th street, New York;

Leslie Cunningham, 27, Elizabeth, N. J.;

Lester Hart, 30, Miami;

J. D. Johnson, 50, 1110 76th Road, Forest Hills, N. Y.;

Saul Lehr, 49, Hillside, N. J., and Arthur Manger, 27, 23 Church street, Paterson, N. J.

Counsel Says Board Acts Illegally Under Charter Provisions

Two statements were offered today by Mayor Oscar V. Newkirk and Corporation Counsel James G. Connelly to clarify their positions in regard to the question of pay for Kingston's uniformed firemen.

Mayor Newkirk "scotched" statements that he had "personally refused" to draw up a pay roll for the firemen by saying, "I have no such authority. The matter is strictly up to the Board of Fire Commissioners."

Corporation Counsel Connelly said, "The fire board has never asked me my opinion . . . and are apparently relying on independent legal advice contrary to the provisions of the charter, which make the corporation counsel the legal adviser of the fire board. There is no legal reason whatsoever to prevent the fire board from certifying a pay roll in accordance with the budget without rescinding their resolution. . . .

"The city administration wants the firemen to have the pay to which they are entitled under the budget. The sole issue is whether they are legally entitled to more pay than was provided in the budget. The existence of this issue certainly does not justify statements that the city administration is trying to have the firemen work for nothing and without pay."

Text of Statement

The text of Corporation Counsel Connelly's statement follows:

"In a press release appearing in last night's Freeman, George E. Yerry stated that if Mayor Newkirk were interested in the firemen receiving their pay he would instruct the corporation counsel to appear immediately before the Supreme Court. Law suits take time to prepare. After the matter is prepared and argued, it takes time for a Judge to consider all the authorities and arrive at a decision. The intimation contained in Mr. Yerry's statement is solely designed to mislead the public into believing that the time involved in a lawsuit is part of a plan to keep the firemen from getting ANY pay.

"Mayor Newkirk is willing and has repeatedly suggested to the firemen that they take their pay in accordance with the budget. We have repeatedly pointed out that the firemen can accept their pay as provided for under the budget under protest without jeopardizing their position that they should receive more than the budgetary amounts. We have repeatedly stated that in any court action we would not raise the technical defense that the firemen accepted these checks as a bar to their right to litigate the question of whether or not they receive a greater amount. However, last week the firemen and their union representative de-

Meat Talk Spurs Hoarding, Thye Says

Washington, Jan. 21 (AP) — All the hot talk in Congress about meat rationing is simply serving to build up private stocks in cold storage lockers, Senator Thye (R-Minn.) contended today.

While steering clear of the controversy between G.O.P. Senators Wherry (Neb.) and Flanders (Vt.) over Wherry's "kidding" accusation that his New England colleague is a meat "hoarder," Thye said he wishes the whole subject of rationing could be dropped.

Otherwise, he told a reporter, housewives will buy all the meat they can and put it into frozen storage. Thye said talk of rationing "already" is jeopardizing our meat supply" by discouraging the feeding of beef cattle to full weight.

Kingston's Eligibility for State Assistance Will Be Discussed Thoroughly

Three Ways Open

State Program, F.H.A. Assistance and 'L.D.' Are Possibilities

Although conferences and meetings relative to keeping the city's budget within the constitutional limitation have filled each day for Mayor Oscar V. Newkirk ever since he took office on January 1, he is not overlooking the housing situation which he promised to deal with immediately during his election campaign.

Mayor Newkirk, during several speeches outlining his course if elected, said he intended to give action in the housing shortage. "There was much criticism relative to inactivity on the part of the previous administration regarding local housing," he said, and added, "I'm anxious to do something concrete about the situation."

The mayor made this statement today as he announced a public meeting in the Kingston Municipal Auditorium, for Wednesday, February 4, with Herman T. Stichman, state commissioner of housing as the guest speaker. Commissioner Stitchman will explain the various phases of public housing, and answer questions.

How Kingston can become eligible for a state housing program will be thoroughly discussed.

F.H.A. Is Invited

An invitation has also been extended to the area manager of the Federal Housing Administration and it is expected that he may be present also to tell how his organization operates in building homes with 90 per cent of the cost furnished by the federal government.

Albany at present has a project for 200 housing units under the F.H.A. plan. In a number of communities contractors have taken advantage of this method, and in others veterans form cooperative groups to build homes.

There is another plan called limited dividend housing which will come in for discussion at the meeting on February 4. A definite time for the session is to be announced later. This plan is employed by insurance companies and an invitation has been extended to one of the largest firms to send a representative.

Mayor Newkirk said that although he has been crowded for time to discuss city finances with employe groups seeking higher wages not provided for in a budget that had to be pared down by thousands of dollars to meet legal stipulations, he considered the housing problem of such vital importance to the public that he is determined it shall have immediate attention.

During the election campaign, the Democratic administration was sharply criticized for not having taken any action relative to the housing shortage in Kingston.

It is the hope of Mayor Newkirk that the housing meeting slated for February 4 will be largely attended at the auditorium.

Long and Jones Run Closely in Louisiana Voting

Count of Primary Ballots Is Slow; Long Is 5,000 Votes Ahead of Jones

New Orleans, Jan. 21 (AP)—Two arch-rivals of Louisiana politics since the days of the "scandals"—former Governors Earl K. Long and Sam H. Jones—today were out in front and close together as the slow count of yesterday's Democratic gubernatorial primary election continued.

There were four candidates in the race and it was certain a runoff primary, set for February 24, would be necessary. But hundreds of country boxes remained to be tabulated, so it wasn't yet certain that Long and Jones would qualify as the two highest and therefore eligible to repeat their runoff primary battle of 1940. The prize is a nomination equivalent to election.

Jones is the man who led a ballot box revolt in that year against the late Huey P. Long's political organization, which backed Earl Long, Huey's brother, for the governorship. Jones won and was succeeded in 1944 by a political ally, the singing governor, Jimmie H. Davis. This year Jones and Long again were made standard-bearers by their respective factions.

The old regular organization of New Orleans, breaking an alliance originally imposed by Huey Long, backed its own candidate, U. S. Rep. James H. Morrison. Judge Robert F. Kennon made an appeal for the ex-servicemen's vote with an "all-GI ticket."

Unofficial returns from 596 of the 1,878 precincts in the state gave Long 74,115 votes, Jones 69,647, Morrison 45,350 and Kennon 38,574.

Louisiana's worst winter weather in years—including snow and ice storms—failed to prevent a huge vote from being cast. The large number of ballots and the lengthy lists of local candidates combined to slow the count. Negroes voted in unprecedented numbers. No incidents were reported.

The Negro vote still amounts to only a small portion of the total.

Wicks, Baker Elected To Bard College Board

Senator and Advertising Executive Are New Trustee Members, Steinway Says

Election of Senator Arthur H. Wicks, of this city, New York State Senate Finance Chairman, and Milford A. Baker, of New York, vice president of Young & Rubicam, national advertising counselors, to the Board of Trustees of Bard College, Annandale-on-Hudson, was announced today.

The announcement was made by John H. Steinway, chairman of the Bard College board, who said unanimous action by the trustees was taken yesterday at a meeting at Steinway Hall, New York.

"Selection of these two outstanding national figures," Mr. Steinway said, "is in line with Bard's progress as one of the country's leading small colleges. Both have served extremely well in their chosen fields."

Fresh Cold Wave Is Heading East

North Central Area Blast Sends Thermometers Down Rapidly

(By The Associated Press)

After a brief respite from last week's frigid weather, a new but less severe cold wave appeared in prospect for the eastern half of the country.

A fresh outbreak of cold air surged across the Canadian border and moved into the north central sections of the country. It was expected to cover the same area gripped by winter's iciest blasts last week.

Accompanied by snow flurries and strong winds, the cold air moved down the Missouri and Upper Mississippi valleys and temperatures dropped rapidly in the Dakotas and Minnesota, reaching sub-zero levels this morning. The mercury was expected to dip to near the zero mark in Chicago tomorrow.

Temperatures had moderated considerably throughout the cold belt in advance of the fresh frigid blasts, but the southeast states continued to shiver in abnormally cold readings.

Rain was reported general in the lower Mississippi valley and over the South Atlantic states. Freezing rain or snow extended northward across central Virginia and there was snow in southern Pennsylvania and along the coast across New York city. Some sections of northern New England reported sub zero temperatures.

From three to eight inches of snow were forecast for New England as a snowstorm which centered in the Carolinas moved northeastward.

The new cold spell, federal forecasters in Chicago said, will not approach the severity of the recent frigid weather which enveloped the eastern half of the country and caused at least 50 deaths.

The prospect of several more days of cold, dry sunny weather in California emphasized the probability that this winter will be California's driest in 70 years. Farmers, fruit growers, cattlemen and forest rangers were reported concerned over the lack of water and the dryness of farm and range lands.

Gandhi Asks Mercy

New Delhi, Jan. 21 (AP) Mohandas K. Gandhi said tonight he will ask the police to be merciful with a youthful Hindu accused of exploding a home made bomb near his prayer meeting last night. The suspect could be imprisoned for life. "We should not harbor hatred," Gandhi said. "I will request the police not to trouble him but to have compassion towards him and make him see the righteous path." Gandhi, too weak to walk because of his recent fast for communal peace, had been carried to the prayer meeting in a chair.

Aid Is Urged

Washington, Jan. 21 (AP) The American Legion and Veterans of Foreign Wars joined today in urging economic aid for western Europe to fence Russia off from resources which might be pressed into war against the United States. James F. O'Neil, commander of the American Legion, told the Senate Foreign Relations Committee failure to put the Marshall Plan into effect probably would result in Communist control of all Europe.

Contract Is Awarded

Albany, N. Y., Jan. 21 (AP)—A $1,488,227 contract for reconstruction of Route 146 in Saratoga county was awarded today to John Arborio, Inc., of Poughkeepsie.

Travel Is Hazardous

New York, Jan. 21 (AP)—Sleet and rain falling on ice-encrusted and snow-covered traffic arteries today made travel hazardous, particularly in the city's outlying sections and suburbs. Commuter trains were running from 10 to 45 minutes late, due chiefly to ice forming on power lines. Trains from the west in many cases were 45 minutes to one and one-half hours behind schedule. Temperatures in the mid-30s were expected to rid the streets of some of the accumulated snow in sections where it is still piled high. The Weather Bureau said the rain ends tonight.

Eight Cases Discovered

New York, Jan. 21 (AP)—Investigation of the death of an aged wealthy spinster widened today to eight cases in which the district attorney's office said a Manhattan undertaker figures as executor of the estates of aged women. The undertaker, Fred Lasch, 56, is under indictment for forgery in the will of Miss Mathilde Molsberger, 81, who died last June leaving a $20,000 estate and whose exhumed body was found to contain a lethal dose of barbituric acid.

Hotel Pays Three Per Cent Dividend

Officers Reelected for '48; Wicks Says Financial Status Excellent

Reports submitted at the annual stockholders meeting of the Kingston Community Hotel Corporation, operators of the Governor Clinton Hotel, last evening indicated one of the most successful years since the hotel has been in operation. During the year the hotel has retired mortgage and bond obligations to the amount of $58,000 and stockholders of record as of December 31, 1947, were paid a 3 per cent dividend on preferred stock. This was the first dividend on preferred stock paid by the corporation in several years.

At the stockholders meeting held at 7:30 o'clock the following directors were named: A. H. Wicks, Peter A. Black, W. Anderson Carl, A. J. Burns, N. J. Fowler, R. R. Gross, Stuart E. Hockenbury, Stanley J. Matthews and W. G. Callahan. Mr. Matthews was elected a director to replace Dr. L. A. McCambridge and W. G. Callahan replaced J. L. Kincaid who had been on the board for several years.

At the conclusion of the stockholders meeting the board of directors met and the following officers were re-elected:

President, Arthur H. Wicks; vice president, Peter A. Black; treasurer, W. Anderson Carl; secretary, Arthur J. Burns; assistant secretary and assistant treasurer, Nicholas J. Fowler.

There were approximately a score of stockholders present at the stockholders meeting and the annual financial statement was presented which indicated the corporation in the best financial condition since its organization. President Wicks today stated that the "hotel is in splendid financial shape." A copy of the annual financial statement will be sent to all stockholders.

Following the meeting ice cream, cake and coffee was served.

Prime Minister King Quits His Dominion Post at 73

Ottawa, Jan. 21 (AP)—Prime Minister William Lyon Mackenzie King says he wants to retire as leader of Canada's dominant Liberal Party, and thus—according to dominion tradition—as prime minister, as soon as the party names his successor.

In an address before the National Liberal Federation's Advisory Council last night, he asked that a Liberal convention be summoned next summer to select his successor as the party's boss.

Political circles interpreted the 73-year-old prime minister's carefully qualified remarks to mean that he wants to get out of office and politics this year, but that he would consent to being drafted if the country needs him further.

King, who has been in office for all but five and a half years since December 29, 1921, would by April 20, 1948, surpass the empire record for length of prime ministerial service, set by Robert Walpole of Britain, who served for 7,619 days early in the 18th century as head of Britain's government.

Informed political sources predicted that Louis St. Laurent, 66-year-old minister of external affairs, would be chosen to succeed King, both to the party leadership and the prime minister's post.

Under the Canadian political system it has been traditional for the same man to hold leadership of the party in power and the post of prime minister.

King first became prime minister in December, 1921. In 1930 he was defeated by R. B. Bennett, Conservative, but in 1935, he was returned to office with the greatest majority any party ever had in the Canadian Parliament. He was reelected in 1940 and again in 1945.

One of the most important features of King's career has been the development of Canada's relations with the United States. St. Laurent, if he succeeds King, probably will be committed to the same course.

King emphasized in his speech that he had long desired to give up active politics and write memoirs.

Workers Quit Jobs

Frankfurt, Germany, Jan. 21 (AP) —About 200,000 workers left their jobs in Nuernberg and Cologne today, protesting food shortages. Union speakers, addressing a throng of 30,000 strikers in the Nuernberg Squre formerly known as Adolf Hitler Platz, assailed the British and American administrations and the German government. Workers carried banners bearing such slogans as: "We Want a United Germany;" "Death to Black Marketeers;" and "We Are Hungry."

Treasury Receipts

Washington, Jan. 21 (AP) — The position of the treasury January 19: Receipts, $231,003,947.55; expenditures, $66,150,527.48; balance, $3,015,279,488.79; customs receipts for month, $22,077,231.62; receipts fiscal year July 1, $21,102,986,981.51; expenditures fiscal year, $19,249,907,801.29; excess of receipts, $1,853,079,180.22; total debt, $256,544,117,981.66 increase over previous day, $1,175,705.49; gold assets, $22,789,861,257.62.

Missing Girl, 14, Is Found In San Francisco by Police

San Francisco, Jan. 21 (AP)—Jacqueline Horner, 14-year-old Los Angeles piano prodigy and movie actress who had been missing since January 13, was taken into custody here early today, police announced.

The girl, said Inspectors John Merrill and Dan Shelly, was found in a Van Ness avenue hotel room with a sailor. The youth was jailed on a charge of contributing to the delinquency of a minor. He is Wallace Wells, 19, attached to the Navy tanker, Cimarron, at Hunters Point here.

Miss Horner was turned over to juvenile authorities as a runaway and lodged in juvenile hall.

Inspectors Merrill and Shelley said a tavern owner's tip that he believed the missing girl had been in his place several times led to finding her.

They said Jacqueline, clad only in a white slip, hid in a closet when they knocked on the hotel room door.

"The door was shut and no one answered," Merrill said. "We turned the knob and the door opened and we walked in. The sailor was sitting there, and then Miss Horner came out.

"At first she was kind of hysterical and pretty mad at being found in the room with the sailor, but then she calmed down and was very cooperative.

"She seemed like a very nice kid. She looks and acts a lot older than her 14 years, though."

The inspectors reported both Jacqueline and Wells said their relations had been purely platonic and offered to submit to medical tests to prove it.

"They seemed like nice kids," Shelley added. "They probably were telling the truth.

"Wells said he met Jacqueline on Market street Friday and had been 'taking care of her' since, because she was broke."

In Los Angeles, a family friend told newsmen that Mrs. Clara Horner, Jacqueline's divorced mother, had collapsed after being informed her daughter had been located. Jacqueline had left home after a family quarrel.

The inspectors said Jacqueline, whose mother had said the girl previously led a very quiet life,

Pay Is Not Question

Washington, Jan. 21 (AP)—President Truman said today "the pay didn't enter into the question at all" when he asked Congress to let Maj. Gen. Laurce S. Kuter serve as chairman of the Civil Aeronautics Board but keep his military pay and rank. The President made that statement in a letter to Chairman Gurney (R-S.D.) of the Senate Armed Services. That group twice turned down legislation to meet Mr. Truman's request — the second time after he had called the members to the White House for a personal talk.

N.L.R.B. Is Swamped

Washington, Jan. 21 (AP)—The National Labor Relations Board reported today it was swamped with a record-breaking total of 2,064 new cases during December. The rush was the greatest in the board's 12-year history. It was attributed in part to the fact that many unions stayed away from the board for months after the Taft-Hartley Act became effective last August 22. This act requires union leaders to sign non-Communist affidavits in order to be eligible for the board's services.

Minneapolis Babe Dies in Mayor's Office

Minneapolis, Jan. 21 (AP) — Mayor Hubert Humphrey today summoned for 4:30 p. m. (C.S.T.) an emergency meeting of the Minneapolis Public Welfare Board for what he said would be an "exhaustive inquiry" into the case of a four-months-old infant who died in his office reception room yesterday.

Mr. and Mrs. Arthur Jensen, Minneapolis, parents of Arthur, Jr., told William C. Sims, aide to the mayor, the child died following refusal of General (City) Hospital physicians to admit it Monday night.

Dr. Russell R. Helm, Hennepin county (Minneapolis) coroner, said the infant died of laryngeal-tracheal bronchitis. He said an inquiry by his office disclosed physicians at the hospital had administered penicillin injections and taken X-rays of the baby for a pneumonia check but had found no traces of that disease Monday night.

Dr. Helm said the child had been under treatment for a respiratory ailment since December 29 and that the doctors "had acted in good faith in their handling of the case." He added that the physicians had asked the parents to bring the child back to the clinic yesterday morning.

Instead, Sims said the Jensens told him they had come to the mayor's office to "get a slip so we won't have to stand in line at the clinic." The coroner reported the baby stopped breathing while lying on a desk in the mayor's reception room and was pronounced dead upon arrival at General Hospital two blocks away, where it was taken immediately.

In statement last night, Humphrey called the incident a "shocking tragedy" and expressed his sympathy for the parents. The welfare board has general supervision over the city hospital, he explained.

YES MAN

My name is George Carpenter. I'm the "Yes" man at Personal Finance Co. . . . that is—I'm the man who likes to say "Yes" to requests for Personal loans.

You see—I'm the manager of our office—the man who's responsible for building up our business. The more times I say "Yes" to requests for loans — the more business we do. And since making Personal Loans of $25 to $250 or more is our ONLY business —that's mighty important to me.

Therefore, if you need extra cash at any time—whether a little for a short time or a lot for a long time—you can depend on my doing my best to say "yes" to you.

Next time you can use a loan give me a chance to say "Yes" — won't you? I'll consider it a favor. SEE ME at PERSONAL FINANCE CO., of New York, 2nd floor, over Newberry's, 319 Wall St., or Phone me at Kingston 3470.

3 Unions Block Labor Peace—Refuse Wage Boost Already Accepted by 19 Other Railroad Unions!

The Brotherhood of Locomotive Engineers, Brotherhood of Locomotive Firemen and Enginemen and the Switchmen's Union of North America, representing 125,000 railroad employes, have refused to accept the offer of the Railroads of a wage increase of 15½ cents an hour.

This is the same increase awarded 1,000,000 non-operating employes by an arbitration board early in September, 1947.

This is the same increase accepted by 175,000 conductors, trainmen and switchmen by agreement on November 14, 1947.

Agreements have been made with 1,175,000 employes, represented by nineteen unions. But these three unions, representing only 125,000 men, are trying to get more. They are demanding also many new working rules not embraced in the settlement with the conductors and trainmen.

Incidentally, the Switchmen's Union of North America represents only about 7 per cent of all railroad switchmen, the other 93 per cent being represented by the Brotherhood of Railroad Trainmen and covered by the settlement with that union.

Strike Threat

The leaders of these three unions spread a strike ballot while negotiations were still in progress. This is not a secret vote but is taken by union leaders and votes are signed by the employes in the presence of union representatives.

When direct negotiations failed, the leaders of these three unions refused to join the railroads in asking the National Mediation Board to attempt to settle the dispute, but the Board took jurisdiction at the request of the carriers and has been earnestly attempting since November 24, 1947, to bring about a settlement. The Board on January 15, 1948, announced its inability to reach a mediation settlement. The leaders of the unions rejected the request of the Mediation Board to arbitrate. The railroads accepted.

What Now?

The Unions having refused to arbitrate, the Railway Labor Act provides for the appointment of a fact-finding board by the President.

The railroads feel it is due shippers, passengers, employes, stockholders, and the general public to know that throughout these negotiations and in mediation, they have not only exerted every effort to reach a fair and reasonable settlement, but they have also met every requirement of the Railway Labor Act respecting the negotiation, mediation, and arbitration of labor disputes.

It seems unthinkable that these three unions, representing less than 10 per cent of railroad employes, and those among the highest paid, can successfully maintain the threat of a paralyzing strike against the interest of the entire country—and against 90 per cent of their fellow employes.

The threat of a strike cannot justify granting more favorable conditions to 125,000 employes than have already been put in effect for 1,175,000, nor will it alter the opposition of the railroads to unwarranted wage increases or to changes in working rules which are not justified.

A glance at the box shows what employes represented by the Engineers and Firemen make. They are among the highest paid in the ranks of labor in the United States, if not the highest.

Compare these wages with what you make!

Here is a comparison of average annual earnings of engineers and firemen for 1939 (prewar) and 1947. Also shown is what 1947 earnings would have been if the 15½ cents per hour increase, offered by the railroads and rejected by the union leaders, had been in effect throughout the entire year 1947.

Rowland Named On Hospital Board

Clarence S. Rowland was elected for a three year term as trustee during the annual meeting of the Kingston Hospital Association Tuesday afternoon, Miss Jessie P. Allan, superintendent at the hospital, said today.

Mr. Rowland, widely known in local sports circles, formerly served as chairman on the athletic committee of the Kingston Board of Education.

He succeeds Alva S. Staples, who had faithfully served on the board for nine years. Mr. Staples notified the board yesterday that he could not continue as a trustee and requested that his name be withheld for reelection.

Stephen D. Hiltebrant and William B. Byrne, former city treasurer, were reelected for three year terms during the meeting on Tuesday.

Edward Remmert was temporary chairman during the members' meeting and later was reelected treasurer at the board session. Fabian L. Russell of Saugerties was reelected president of the board while Mr. Hiltebrant was reelected vice-president.

Prominent Men To Attend Dinner At State Armory

Several men prominent in the affairs of the city and state will attend the annual dinner of the Kingston Chamber of Commerce in the New York State Armory Saturday night, at which James A. Farley, former postmaster general and Democratic national chairman, will be guest speaker, it was announced today.

Among those who have recently accepted invitations to attend are Congressman Jay LeFevre, State Senator Arthur H. Wicks, Assemblyman John Wadlin and Col. Frank W. Harkin, commander of the area National Guard units.

Tickets are available to the public and both men and women of the city and county are invited to attend.

had dyed her hair a "reddish blonde," and had done it up "pretty fancy."

The first indication that the missing prodigy was in San Francisco came from a tavern owner who thought he recognized her from a picture after seeing the girl in his place.

The inspectors then located Jean Costello, 23, a night club photographer who came to San Francisco from Los Angeles last Wednesday on the same bus with Jacqueline.

Miss Costello told the inspectors she met Jacqueline on the bus, had not seen her before, but was able to tell them a number of places the girl had been. After checking several taverns and hotels, they finally located her at the hotel.

Merrill and Shelley both said they found no indication that the girl had been drinking or disorderly.

The search had extended as far as Buffalo, N. Y., where her father, George W. Horner, lives. The parents were divorced in 1942.

Jacqueline was born in Cheektowaga, N. Y., a Buffalo suburb.

Newkirk: No Pay

Continued from Page One

cided it had to be everything or nothing.

"It has come to my attention that the attorney for the firemen has advised that the fire board could not certify a pay roll in accordance with the budget without rescinding the December raises in question. The fire board has never asked me my opinion in the matter, and are apparently relying on independent legal advice contrary to the provisions of the charter which makes the corporation counsel the legal adviser of the fire board. There is no legal reason whatsoever to prevent the fire board from certifying a pay roll in accordance with the budget without rescinding their resolution. If the case is decided in favor of the firemen, the fire board could subsequently certify a supplemental payroll. It seems the only reason why the fire commissioners have not certified a pay roll in accordance with the 1948 budget is because they have been persuaded by the firemen and their representative not to do so.

"The City administration wants the firemen to have the pay to which they are entitled under the budget. The sole issue is whether they are legally entitled to more pay than was provided in the budget. The existence of this issue certainly does not justify statements that the city administration is trying to have the firemen work for nothing and without pay."

Long and Jones

Continued from Page One

Morrison's congressional district and a number of rural boxes in which Kennon supporters claimed strength remained to be heard from today.

The nine-year-old "scandals" occasioned much oratory during the campaign, reaching a crescendo a few days before the election when Rep. Domengeaux, a supporter of Jones, charged in a speech in Congress that Long had a "largely illegal" income of $250,000 during the last three weeks in which the Long organization controlled the statehouse.

Long sued Domengeaux, New Orleans publishers, and Jones for $1,000,000, charging a conspiracy to libel him. He and Jones then challenged each other to publish their income records and both have accepted the dare.

$64,500 Is Awarded

New York, Jan. 21 (AP)—A Supreme Court jury today awarded $64,500 to James McCormack, New York city, for the death of his son Thomas, 8, who died five months after the chaps on his cowboy suit caught fire and enveloped him in flames. Counsel for McCormack told the jury viscose rayon, used as a wartime substitute for the material ordinarily used in chaps, was "highly combustible" and "would ignite in an intense and blinding flash of fire when exposed to heat or flame." The jury's verdict was against three companies: Woonsocket Falls Mills of Woonsocket, R. I., manufacturers of the cloth; E. F. Timme and Son of New York, sales agent for the mills, and the M. A. Henry Company, Inc., of New York, manufacturers of the cowboy suit.

County Nutrition Committee to Be Formed Feb. 6th

Steps to reorganize the Ulster county nutrition committee will be made at a meeting in Kingston on Friday, February 6, Mrs. Marion E. Sahler, of Accord, nutritionist of the Ulster County Tuberculosis and Health Association, told members of the Citizens Food Committee in the city court room Tuesday night.

Last night's meeting was called by Captain Andrew S. Hickey, chairman, so that the local group could cooperate fully with the plans now underway by the State of New York Food Committee.

Hickey to Serve

In announcing the February 6 meeting today Mrs. Sahler said that she had already asked Captain Hickey to serve on the committee to study the reorganizational set-up.

Mrs. Sahler has been requested by the state food commission to reorganize the county nutrition committee and she has called for the first meeting to be held February 6 at 74 John street at which time preliminary plans for the reorganization will be made.

Talking to a Freeman reporter this morning Mrs. Sahler said that a representative group would study plans for the reorganization but that it would endeavor not to over-lap the Kingston food committee.

"Our group will attempt to cooperate fully with the Citizens Food Committee," Mrs. Sahler said, and added, "that is why Captain Hickey requested me to meet with his group last evening. We discussed the local unit, studied the background and attemped to make sure that we would not over-lap the local committee during our reorganizational plans."

Mayor Also Speaks

Mayor Oscar V. Newkirk also addressed the local group Tuesday night and spoke briefly on the weekly news letter from Washington, D. C., in regard to the nutritional work.

Fireman Injured Fighting Blaze in Napanoch Tuesday

Napanoch, Jan. 21—One fireman was injured slightly and a store, housing the local post office, was damaged by a fire which started in the basement of a two-story brick building Tuesday.

Fireman Stanley Krom of the Napanoch department suffered a cut on one finger when he broke a glass to enter the store.

The wife and infant of Kenneth McCarthy, who occupied the upper floor apartment, it was reported today, did not know the building was burning until the firemen arrived.

Harry Christian, who operates a variety store in the building, said that the origin of the blaze was undetermined. He indicated, however, that it might have started in electric wiring or in a wood-burning stove in the basement.

The building is owned by Laverne Munson, who is now on Long Island. Frank Hurd is the local postmaster.

Christian estimated damage to the store at about $1,500, but did not know the extent of damage to the rest of the building.

Most of the damage, he said, was confined to the basement, flooring, shelving and stock in the store. The other damage was largely by smoke.

The firemen, Christian said, "did great work." They were called at about 9:30 a. m. and "had water on the fire in 15 minutes." The blaze was checked in about an hour, he said.

BOOKS FOR EUROPE

In a letter to the New York Times, George J. Kent, a former European who recently became a citizen of the United States, urges the adoption of a program "whereby the intellectual creations of the United States would be made available to the European peoples".

This writer emphasizes the fact that Europeans expect only material help from America, believing that our cultural status is inferior to theirs. Mr. Kent thinks that American writers, artists, philosophers, scientists, and engineers have a great deal to give to Europe. The State Department's overseas work consists of ephemeral matter which, while effective, does not give an overall picture of our culture.

It is advocated, therefore, that appropriations be made for the translating, editing, and publishing of outstanding representative books in French, Italian, German, Russian, Polish and Turkish. They should be provided, this writer says, with introductions stating that they are free and friendly gifts from the American people. Distribution should be through schools, libraries, literary clubs and scientific societies.

This idea seems sound and practicable. Thinking people have long known that America's cultural dependence upon Europe has waned without Europe's realization of it. Any project which increases Europe's respect for the important intangibles of our civilization is well worth support.

Personal thrift always has been and will continue to be the foundation for the security and well being of the American family. The regular purchase of U. S. Savings Bonds through the Payroll Savings Plan is a simple direct method for safeguarding the future.

REDUCING COSTS

Many panaceas are being advanced for checking inflation. Most of them pick one particular group, and blame the whole spiral on it. Maybe it is labor, maybe manufacturers and jobbers, all of them accused of being greedy for higher wages or profits. Such reasonings are over-simplifications of a most tangled economic post-war situation.

For example, National Dry Goods Association officials, in convention in New York City, announced as typical of higher costs the increase in Washington, D. C., stores of 14 cents per retail transaction in 1947. They advocated time-saving tools and equipment for greater store efficiency and lowered costs. At a Materials Handling Exposition and Conference in Cleveland, O., a consulting engineer from Battle Creek, Mich., said that higher per capita production and lowered labor costs through new machinery is the answer to inflation. He believed labor would welcome such installations because working conditions would be improved, accidents reduced and unskilled labor cut with skilled labor in greater demand.

A Newark, N. J., warehouse and transportation executive was quoted in newspapers to the effect that transportation costs eat 59 per cent of the consumer's dollar, and industry and government must study how to reduce such costs.

In other words, industrialists of all sorts are concerned with soaring prices. Raised production, lowered manufacturing costs through greater labor efficiency by machine and man both are required to cure inflation.

Mars is only six months journey from the earth by rocket ship, says Prof. James R. Randolph of Pratt Institute, Brooklyn. Just the length of trip for those who don't like winter.

HAYM SALOMON, PATRIOT

The death of a patriot who should be better known was recently commemorated by Mayor Bernard Samuel taking part in the program. This was Haym Salomon, who raised large sums for Robert Morris, the financier of the Revolution.

Money has always been necessary to make wars go, and this was just as true in the Revolution as now. Without the funds that Morris and Salomon raised, Washington's army would have been forced to lay down arms. Salomon lent about $350,000 to the Revolutionary cause, which was never repaid.

Perhaps if Salomon had been hanged by the British, as nearly happened twice, his martyrdom would have made some impression on a dilatory Congress. In view of this default, the least that Americans can do is to observe his memory with gratitude.

The main occupation in this country at present is trying to find a place to live. The birds are better off. They can generally find a place to lay their heads. Where did all these people come from, anyhow?

MUCH ADO ABOUT HART

It goes to show what's wrong with the liberal mind. The Brooklyn Women's Republican Club had invited Merwin K. Hart, President of the National Economic Council, to deliver an address. Hart is called a Fascist by Communists and others because he is favorably disposed to Franco and because he supports Capitalism for the United States, as does the Republican Party. And because he is called a Fascist, by association he is made out to be an anti-Semite. Also, he is anti-Zionist.

So whenever Hart wants to make a speech, or whenever he advocates some idea, sound or stupid, wise or foolish—and it is an American right to advocate ideas—the Communists, progressives, liberals and their innocent dupes shiver and shake in rage. They resort to intimidation. They threaten the sponsors of such meetings. They threaten boycotts and all sorts of evil happenings.

Therefore, John R. Crews, the Republican leader of Brooklyn, ordered the good ladies of the aforesaid Club not to permit Hart to speak. Now Hart happens to be a Republican, had been a member of the State Legislature. I know him, we having been born in the same town, Utica, New York. Hart is not a Fascist nor is he an anti-Semite. He only prefers Franco to Stalin. I do not prefer either nor do I believe that it is any of my business who governs any foreign country. If the Spaniards stand for Franco and the Russians like Stalin, that is their affair. I prefer either Taft or Dewey for President and do not want either Eisenhower or MacArthur. That is as far as I am willing to go.

Crews makes the point: "I have stopped Communist speakers in the past and I will continue to oppose Fascist, Communist and other subversive speakers in the future."

This is not altogether true. But Crews means well. He has, on several occasions, formed political alliances with the American Labor Party, which is provably a Communist political arm. I suppose his defense is that he wants to elect his candidates in a fuzzy district. Crews also said:

"I don't know much about him (Hart) but from what I've heard, he is of the extreme right and we are highly unsympathetic toward him."

Anyhow, that is Crews' story. It appears also that a Judge Benjamin became furious that Hart was to speak to his ladies, so he jumped all over the sweet lady who runs this show. She and I discussed it and I told her that in my opinion she would be smart to have Hart and Benjamin speak at the same time. According to her, the Judge would not speak unless he was the only speaker, which is a judicial prerogative, some judges speaking only to themselves.

So Hart was told on the morning of the meeting not to come. He came. The meeting was adjourned. The ladies remained in their seats. Hart was informally introduced and he made a speech, criticizing the Democrats and Palestine partition. The whole business amounted to nothing except as an example of prevention of free speech by intimidation.

Hart issues a newsletter and in the most recent one he suggested that the people arm against revolution. Personally, I prefer the FBI, the police, the Army and the Navy. Private citizens with guns sometimes let them go off at the wrong time.

The suggestion struck me as hysterical, but I still think that the hysterical fellow has a right to state his hysteria if he stays within the law.

However, the great liberals felt differently. To them, Hart was organizing a citizens' army to murder them. I fear that they must have been up to something dreadful if they are so afraid of Hart. Honest and healthy people do not scare so easily.

The upshot of it all is that one member resigned from Hart's board and Brooklyn has some excitement in an off season. It is no more possible to kill off Hart than it is to kill off Marcantonio by this type of intimidation. The glory of this country is that anybody can hurl ideas at the American people—good ones and foul ones. As, for instance, Henry Wallace. Nobody minds.

LOW BACK PAIN WITH SCIATICA

Whenever I see a passerby holding his head and back in a forward position, but with no signs of trembling hands, I feel like stopping and having a talk with him.

I do this not so much with the idea of trying as a physician, to help him, but because I have had three attacks of back ache with sciatica and so learned something about them. I found that one of my attacks was due to injury, and the other attacks to infection. By wearing a brace for four years, I got rid of the pain due to injury, and by removal of infected teeth I'got rid of the other attacks.

So common is back ache and pain down back of hip and leg (sciatica pain), physicians now are investigating each case instead of just prescribing a pain-killing drug. Thus, so many of these cases of backache and sciatica pain are caused by a crushed disk (cushion between two of the bones of the spine) that treatment for this injury now is prescribed, according to the position and nature of the pain.

In the "Journal of Bone and Joint Surgery," Boston, Drs. V. T. Inman and J. B. M. Saunders report their method of investigation and treatment of injuries to the intervertebral disk. They divide these patients into three groups:

1. Patients with backache and signs of injury to lower back with pain extending from the lower back down one of the legs, are supported with a belt or cast. This treatment gives relief and final cure.

2. Patients who have the same symptoms as group 1 but who, in addition, have evidence of pressure on the root of the nerve or nerve branches. This type of case requires removal of the root pressure by removal of the ruptured, (crushed or herniated) disk, with some support afterwards.

3. Patients whose symptoms of backache may be mild or lacking, but there is some pain extending down the leg and signs of compression are present. Thus, in some positions the patient may be free from pain but suffer in others. There is weakness and loss of muscle tissue, with some loss of sensation. Removal of the pressure on the nerve by operation may be followed by immediate recovery.

Shucks, Just as the Race Was Starting

Leaves From Boyle's Notebook

By HAL BOYLE

Washington (AP)—Taxi drivers earn their tips in Los Angeles by courtesy—in Manhattan by hypnotizing you out of your loose change by shame or wisecracks.

But here in the nation's capital, the cab jockeys are plain polite and philosophic by nature, figuring tips will come only by Act of Congress—and then only after the customer has appealed twice to the Supreme Court.

The Washington taxi driver is a freer man with an opinion than the average legislator. He has views on every subject—the inside of the inside—but unlike the New York cabby, he won't switch his views just to please the human cargo who is paying the fare.

His forum is the highway, his rostrum the front seat of his cab, which he probably owns himself—and that makes him a small businessman and therefore gives him the right to say how the country should be run.

Ask him to take it easy at the wheel, and he's off:

"I'm in no hurry either. Don't worry about me hitting any pedestrians. Can't afford to any more. The repair costs to the cars run too high nowadays. It's $100 now where it used to be $18.

Too Many Tanked Women

"Kinda new here aren't you? I been here most my life. It's a swell ciyt, but I never saw one like it for middle-aged women getting tanked. Darn near every night gotta drive some ginned-up woman home.

"Had one in the car the other night and she started in complaining about her husband. They all want to tell you their life story. This one had two kids she oughta been home minding and here she's been out touring the beer joints with a bald-headed, pot-bellied buzzard with a face like a hop-toad. He was more romantic, she said, than her husband—all he did was bring home his paycheck. And she kept saying, 'Well, what'd you do if you were me?'

"I told her, 'Lady, I don't know what I'd do if I was you, but I know what I'd do if I was your husband. I'd just plain kick you out the house and down the front porch, a step at a time.'

"She shut up then, and when I drove up to her house I was so mad I socked an extra $1.50 on the bill. She didn't holler—just gave me a four-bit tip.

"Tips? You'd think with all these high-priced people around here they'd hand out a little money. But you're lucky if you get a dime from these ten-to-fifteen thousand-dollar men.

Senators Are Laughs

"Senators — they hand me a laugh, but that's about all. Once one of them tipped me a nickel. However, I took another one home once—pretty good old guy, he was—and he said, 'you have to get my car home, too, I've drunk too much to drive.' So I got a friend and we drove his car home, and the senator slipped me ten bucks and winked and said, 'now my wife will think I'm all right when she sees the car's home.'

"Funny thing about the presidents. Most of them do get uppity. But you take Woodrow Wilson. People say he was a cold man. But I saw him at a theatre and walked right up and spoke to him. He was real pleasant. A fine man.

Liked Teddy

"So was Teddy Roosevelt. I saw him whale his two youngest boys right on the White House lawn. Sent another man to fetch them in to dinner, and they sassed him. So Teddy came out himself with a stick and gave it to them good right there on the lawn. They went in a-hopping.

"Never saw Franklin D. Roosevelt except when he was here way back in the first World War. Right nice young fellow then.

"Still and all, you take presidents generally. I don't understand it. But with most them soon's they get to be president right away they begin to think they're a big shot."

It's hard to say just what it takes to be a hero to a taxi driver in Washington.

Congress Is Getting Tangled in 'War Powers,' Yet Who Is Our Adversary, Germany or Russia?

By DAVID LAWRENCE

Washington, Jan. 21—Is there a "state of war" against Germany and another "state of war" against Russia?

Congress is beginning to get itself entangled in the "revival" of "war powers" in order to combat inflation, and yet there is no preamble, stating what war America is supposed to be fighting at the moment.

Last month, for example, the so-called anti-inflation bill undertook to "revive" certain provisions of the second war powers act and referred to that law by name. But the second war powers act was passed originally with a preamble reciting the existence of a state of war against Germany and Japan. In that war, Russia was an ally so the use of the same war powers to cover situations arising out of complications with our allies presents some embarrassments. Technically speaking, the Russians are still our allies.

Congress, of course, has the constitutional power to declare war. The majority, however, did not say in December that it was reviving certain war powers for the President because of any new war. The word "revive" was used to imply that in some way the war against Germany and Japan was continuing to exist. Yet all the measures being taken for interim aid to Europe and for the Marshall Plan will involve the power to allocate the use of commodities because these articles are needed to combat Communism or to stop the progress of Soviet Russia.

It would appear that Congress, if anxious to proceed under its war powers, either would have to declare a "state of war" existing as against Russia in order to revive war powers or else to invent a new set of war powers—those of "undeclared war."

The United States, during the period between September 1939 and December 1941, took several legislative steps as a part of the national emergency and the broad phrase "national defense" was availed of to cover all manner of preparations for resisting possible attack by either Germany or Japan. Today, however, none of the legislation to allocate commodities has been tied up with national defense, though there have been some references to a "revival" of war powers.

It is the mention of "war powers" which could conceivably cause embarrassment to our government, for certainly nobody is ready to say officially in any laws or regulations that a "state of war" exists against Russia. Likewise, it can hardly be argued persuasively that America is still at war with a nonexistent German government.

Congress in the past has not required that a peace treaty be signed in order to end a "state of war." In 1921, Congress by a unilateral resolution, declared the state of war with Germany to be an end. Otherwise there could have been an indefinite postponement of the official ending of a war and powers given in wartime emergencies could have been invoked at will during peacetime.

It is really unnecessary for Congress to revive any war powers if it wishes to combat inflation. The constitutional power to regulate commerce is broad enough to cover almost anything that Congress may wish to do along economic lines. For the Supreme Court has said that Congress has virtually unlimited power now over production, wages, and prices. It isn't really essential for legislative purposes to have a declared or undeclared war. Besides, our diplomats will be growing uneasy if they are questioned as to the meaning of legislation that specifically speaks of a "revival" of war powers. These can hardly be explained as being directed against an enemy that has already been conquered, when everybody knows such legislation is really aimed at a situation created by an entirely different "enemy."

Central Hudson Uses Aerial Patrol System

In September 1946, the first system-wide patrol of the Central Hudson Gas & Electric Corporation's transmissions lines was made by plane, inaugurating a new method of line inspection to supplement the ground force program. By the end of 1947, the aerial patrol teams, on sectional flights, or on regularly scheduled inspections of the entire transmission system, had covered a total of over 5,500 miles of line.

The results, to date, indicate the practical value of aerial inspection in freeing personnel whose training can be effectively utilized elsewhere from hours of line walking rendered extremely difficult in some cases by rough terrain or heavy snow. Causes of interruption have been quickly located and reported by plane, eliminating considerable tedious and slow patrolling of the line on foot.

As on the ground, the worth of the patrol depends on the experience of the observer and his ability to evaluate the relative importance of his findings. The initial flights showed a need of detailed instruction in "where" and "what" to look for while flying the line. Training provided by the company has increased the proficiency of the observers and the effectiveness of the aerial patrols. However, since the detection of certain line conditions such as pole decay, is limited with the planes now available by minimum height and cruising speed requirements, a coordinated air-ground inspection program is presently necessary to insure complete coverage.

Equipped with skis, the planes have continued patrolling throughout the winter months, being grounded only by periods of high wind or storm. Air conditions immediately following an electrical storm are generally favorable for flying, enabling inspections for storm damage without delay. During the dry season, the advantages of long range observation best obtained were demonstrated through a series of flights over the Minnewaska area by which the company was kept constanly informed on the proximity of forest fires to its lines last fall.

Cub type planes carrying one observer in addition to the pilot are currently employed in the work, cruising the lines at an average speed of 65 miles per hour. The teams patrol from 100 to 200 feet above and slightly to one side of the wires, although in cleared sections they may inspect at considerably closer range. Normally the aerial patrol does not exceed three hours, observer fatigue rendering longer periods impractical.

Labor Party to Campaign
100 McEntee Street
Kingston, New York
January 16, 1948

Editor, The Freeman:

Last week you gave prominence to a news item, stating that Mabel Fisher, Business Agent for the Amalgamated Clothing Workers Union of Kingston, followed the lead of Hyman Blumberg, Chairman of the American Labor Party in New York State and resigned from the American Labor Party of Ulster County.

With all due respect to Mr. Blumberg, despite differences of opionion, we still recognize his tireless efforts to build the American Labor Party in New York. We cannot say that this is true of the leaders of the Amalgamated in Kingston.

Upon my assumption as Chairman of the American Labor Party in Ulster County, I found that the preceding officers considered themselves an adjunct of the Democratic Party and showed no inclination to build the American Labor Party. We, who have seen a "tweedle dee and tweedle dum" policy of both the Democratic and Republican parties, know the value of a strong American Labor Party.

Mrs. Fisher and her colleagues must share a responsibility for the neglect of building a party for the progressive farmers, working people and middle class. Their resignation does not lessen the gravity of their neglect. People of Ulster County will not be denied the opportunity to voice their sentiments and wishes for a fight against inflation, peace, and a better way of life—by voting for Henry Wallace through the American Labor Party.

The American Labor Party of Ulster County will actively campaign on the vital issues that concern the welfare of our community, such as housing, curbing of inflation through price control, fight against universal military conscription, and relief to Europe without political strings.

Yous truly,
MORRIS FRIEDMAN.

Winning Entries In School Press Project Disclosed

News Story and Cartoon From the New Paltz Central School Head List

Announcement was made Tuesday on a report of the 1947 School Press Project carried on by the Ulster County Tuberculosis and Health Association. The judges, representing the newspapers, the health and education departments, and the Board of Directors of the Tuberculosis Association were Louis R. Netter, Ira V. Warren, Dr. George James, Lester J. Rousa and Mrs. Joseph Deegan.

The judges were most generous in their praise for the effort and response which was made by the many students who participated in this press project. The Tuberculosis Association believes that such a program is an extremely valuable one in giving information about tuberculosis which kills more young people between 15 and 35 than any other disease. They also recognize that the school press is one of the most powerful means of spreading this valuable health education.

The three best entries chosen from the various Ulster county high school papers were: a news story, "The Role of the Tuberculosis Association in a Community Health Program" by Marie DiLorenco of Nepa Hi-Lites, New Paltz Central School; a cartoon, The Christmas Seal in a battle with the tuberculosis germ, by Sadie Penzato of Nepa Hi-Lites, New Paltz Central School; and a news story," Kingston High School Fights Tuberculosis through Chest X-rays and Purchase of Christmas Seals," by Gordon Van de Bogart, Dame Rumor, Kingston High School.

Honorable mention was given to a cartoon portraying the chest X-ray, health education and the Christmas Seals by Robert Tetzloff, of The Ulsterette, Snugerties High School; and a feature story, "News from a Prison Cell" by Janet Polonsky of The Quill, Ellenville High School.

Entries were judged on accuracy of fact, clearness, originality and journalistic presentation. Evidence of careful research and intelligent understanding were given first consideration when the entries were judged.

The contest was co-sponsored by the Ulster County Tuberculosis and Health Association, the State and National Tuberculosis Associations, and the Columbia Scholastic Press Association. The material for the 1947 School Press Project could be given on either of these subjects—The Role of the Tuberculosis Association in a Community Health Program or How My School Can Help Prevent Tuberculosis.

The three best entries from Ulster county will now be forwarded to the State Committee on Tuberculosis and Public Health. Nine outstanding entries from each state can be forwarded to the National Tuberculosis Association for final judging. A committee of three nationally known journalists will judge the entries for N.T.A. Each school whose entries are approved by the National Association will receive a certificate of honor.

March of Dimes Shows Progress in All County Areas

Indications are that this year's March of Dimes, if interest and enthusiasm remain at the present pitch, will go over the top in Ulster county.

Mrs. William Powers, campaign chairman, today was high in her praise of efforts being put forth by committees busy collecting and arranging events around the county, and added that she felt equally as proud of those who are filling the coin boxes.

"Everybody seems to realize that we must win this war against infantile paralysis," she said. "Cooperation to date has been splendid."

At B'nai B'rith boxing bouts last week, sports fans contributed $192 to the March of Dimes. Other sports events are in the making, also social events to help raise Kingston's and Ulster county's quota.

The sports committee is made up of Howard Spaulding, Evelyn Dolson and Peter Keresman, all identified with bowling, and they contemplate turning in a nice amount. Plans are to have two prominent political figures put on an exhibition for the fund.

Outside of Kingston, several dances and social programs are being arranged for the Ellenville and Kerhonkson sections.

Attorney William A. Kelly, chairman of the March of Dimes Mardi Gras ball, scheduled for Jan. 30 in the Crystal room of the Governor Clinton Hotel, is very optimistic about the attendance. Returns for patron tickets are being received at an encouraging rate, he reported, and indications are that many will dance to the strains of a 9-piece orchestra.

There will be various features at the ball, a candy booth, flower booth, strolling musicians, roving photographer and other unique mediums of entertainment found in metropolitan night clubs along New York's great white way.

This evening at 7:45 o'clock, Dr. George James, Ulster County Health Department, will give a radio talk on infantile paralysis and the March of Dimes; Thursday at the same hour there will be a talk over the air by Fred Stang, county attorney and Friday at 10 a. m., Attorney Charles Gaffney will speak.

Paper Is Banned

Duesseldorf, Germany, Jan. 21 (AP)—Britain, in its first strong anti-Communist move since publication of the purported "Protocol M" plan to wreck European recovery, has banned the Communist-sponsored "People's Progress" in its German occupation zone. The congress, scheduled to meet at Solingen Saturday, was branded by Acting Regional Commissioner Brig. G. V. A. Barraclough last night as a "deliberate and imprudent attempt" by the organizers to circumvent provisions of a military government ordinance whose object is to insure that political activities are conducted "honestly and openly."

E. B. Harder Estate Appraised at $26,100

New York, Jan. 29 (Special) — Edward B. Harder, ex-mayor of North Pelham, who was born in Woodstock and had property there, left holdings set at $28,159, gross, and $26,100, net value, in an appraisal today by the New York State Transfer Tax Department here.

All of the estate, including Woodstock property which he had inherited from his father Levi N. Harder, and had taken possession of in January 1947 after the death of the life tenant, Mary E. Harder, will go to his widow, Mrs. Florence S. Harder of North Pelham.

Mr. Harder died on June 15, 1947 at the age of 72. For 25 years he had worked as an accountant for various large New York concerns. He was elected mayor of North Pelham on the Republican ticket in 1929, and had been chairman of the Board of Assessors of the Town of Pelham since 1935.

For a quarter of a century, the Alaskan sea otter was thought extinct.

Lions Club Told How A.A. Works To Help Members

Voluntary group effort is found more effective in the cure of alcoholics than other means used, Dr. Thomas F. Crowley told members of the Kingston Lions Club at their regular luncheon meeting Tuesday in the Governor Clinton Hotel.

Dr. Crowley talked on the organization known as Alcoholics Anonymous and outlined the history, purpose and effect of its work.

The Lions club paid tribute to Harry L. Edson, assistant director of local recreation by presenting him with an honorary membership in tribute to his work and in observance of his recent 75th birthday.

It accepted into membership Mayor Oscar V. Newkirk, Commander Andrew S. Hickey, U. S. Navy retired; Lawrence M. Jensen, Ben Sklon and Walter Kostronistin.

Dwight H. Smith, father of Warren Smith, was made an honorary member in recognition for work which he has done for the club. Special signs announcing the place and meeting date of the Lions Club were made by the new honorary member and installed at all of the city's main highway approaches. Walter Donnaruma, president of the club delivered an address of tribute in conferring the award.

Dr. Crowley stressed the group influence as represented in Alcoholics Anonymous as more effective than the spiritual approach or that of psycho-therapy as used in the past.

This group, he said, provides the proper social environment for the alcoholic, because he senses that he is in compatible and sympathetic environment.

It helps them to "identify their problem," he stressed, and hits at self-delusion and illusion. It gives rise to a sincere desire to conquer the problem and its influences are generally progressive.

Those who join, he said, are cautioned against making any commitments or promises "even to themselves," and they are taught to abstain without prejudice.

Personality Is Cause

The real trouble as found in alcoholics, he declared, lies in the personality of the individual, and here he differentiated between the social and the pathological drinkers.

An estimated six per cent of those exposed to alcohol will develop as alcoholics, he said, and some heavy drinkers merely simulate the pattern.

The alcoholic, he indicated, is not in balance with himself nor society and his troubles grow from that fact. Science, he said, has not yet obtained all the answers, but it is progressing.

Warren Smith in his address of tribute to Harry L. Edson, outlined his busy schedule in the recreation department and declared that "Harry L. Edson is an institution."

His "days are long and nights longer in his service to the community," he said, and "his remuneration can never be adequate to his work."

It was also announced at the session that the stamps to be used in the sale for the blind are available.

The sale is being conducted to establish a sight conservation room for the public schools, to give social and other aid to the blind and to promote sight conservation generally.

Guests at the meeting were the Rev. J. Dean Dykstra, Edward McCooey, Dwight H. Smith and Mr. Edson.

Teachers Hold Meeting

Only routine business was discussed during the regular meeting of the Kingston Teacher's Federation Tuesday night in the city court chambers, William Reardon, spokesman for the group said today.

Warden Requests Fogarty Resign as Newburgh M'gr.

The resignation of Joseph A. Fogarty as city manager of Newburgh was called for this morning by Mayor Herbert A. Warden, it was announced by an authoritative source.

It was said by the informant that pre-election upheaval over parking meters was the basis for the resignation request by the Republican mayor and two councilmen of the same political party.

Fogarty has been city manager since 1939, and those in favor of him point to a reduction of more than a million dollars in indebtedness since he took over the post, also to a reduction in the tax rate of about $10 a thousand.

Sells Reports Deficit

Albany, N. Y., Jan. 21 (AP)—State Fuel Coordinator Charles H. Sells today reported "an apparent deficit of approximately 30 per cent" in the state's fuel oil supply. Sells, calling regional and large city coordinators to Albany tomorrow for a "procedure" conference, said the fuel oil supply was 10 per cent greater than a year ago but that the potential demand was up about 40 per cent. A 24 per cent increase in the number of oil burning units and a "17 per cent colder winter," Sells added, resulted in the higher demand.

Editor
The Freeman
Dear Sir:

The accompanying letter was today given to Mayor Oscar V. Newkirk.

We would appreciate having it published in The Freeman:

Very truly yours,
Kingston Uniformed Firemen's Ass'n.
Albert Hutton, President.
Robert Hardwick, Sec.

January 20, 1948

Honorable Mayor
Oscar V. Newkirk,
City Hall,
Kingston, New York

Dear Mr. Mayor:

Prior to your election you wrote a letter to the Uniformed Firemen in which you promised to do all in your power to obtain for the Firemen, the same rate of wages as to be paid to the patrolmen commencing on January 1st, 1948. It is now quite apparent that you do not intend to keep this promise. For the first time in the history of Kingston our husbands are facing payless pay days.

We know and you know that the Board of Fire Commissioners granted the salary increases to the firemen. The salary checks covering the increases were delivered to your City Treasurer to be signed by him and delivered to the firemen. Your City Treasurer refused to sign the pay checks. We assume that he would not have done this without your express permission. When you say that the firemen can have their money any time they want it, you are deliberately misstating the facts.

As a husband and father, you ought to realize that it is not we who suffer as a result of this petty quarreling, but our children who must go without the things that they need and must have.

As a result of your action it has become necessary for the firemen to go to the expense of obtaining a lawyer in order to obtain the wages which they have already earned and which is lawfully theirs. Certainly you are not doing all in your power to help them obtain their wages. If you sincerely wanted to help them, you would have at least saved them this additional expense by having your corporation counsel institute a legal proceeding in order to determine whether you were right in denying the increases or your board was right in granting them.

It seems to us, and we are not lawyers, that under the Charter, the Board of Fire Commissioners has the absolute right to fix and determine the salaries paid to our husbands. This they have done, not alone this year, but during all the years of the Fire Department and ever since it was organized as a paid fire department. You are the first mayor who has ever questioned the right of the Fire Department to exercise this power granted to them by the Charter.

We do not believe that you are so lacking in human understanding as to permit this intolerable situation to continue to exist. As the days go by the situation will become even worse. It is now apparent that you hope that through the force of economic pressure, exerted upon us and on our children, we will eventually compel our husbands to agree to a pay cut. This is to assure you that we and our children will support our husbands in their endeavor to obtain what is rightfully theirs.

We hope that you will reconsider your action and carry out your promise.

Respectfully yours,

Local Death Record

Nellie Gunderson died at her home in Morgan Hill, Town of Hurley, Tuesday evening. The funeral will be held from the late residence Friday at 2 p. m. Burial will take place in the Woodstock Cemetery. She is survived by a nephew, Lawrence A. Andersen of Morgan Hill.

The funeral of Ada M. Stephens Schoonmaker, widow of Charles W. Schoonmaker of 14 Van Buren street, who died Sunday, was held from the parlors of A. Carr & Son, 1 Pearl street, Tuesday at 2 p. m. Services were conducted by the Rev. Arthur E. Oudemool pastor of the First Reformed Church. Burial took place in Wiltwyck Cemetery.

Jacob Stettinger died in Kingston on Tuesday. He was the husband of the late Frances Dennis Stettinger. Surviving are two daughters, Mrs. Jacob Colavecchio and Miss Evelyn Stettinger; and a son, Frederick Stettinger. The funeral will be held from the Henry J. Bruck Funeral Home, Main street, Rosendale. Funeral arrangements will be announced.

The funeral of Miss Agnes L. Kenny, who died in New York Tuesday will be held from the Ernest A. Kelly Funeral Home, 111 West Chester street, Friday morning at 9 o'clock, thence to the Church of Holy Name where at 9:30 a high Mass of requiem will be offered for the repose of her soul. Burial in the family plot in St. Mary's Cemetery. Friends will be received at the funeral home at any time.

Charles V. Ennist, who was employed as a blacksmith by the Board of Public Works for several years, died at his residence, 608 Delaware avenue, this morning. He is survived by his wife, Mae Haines Ennist, and two sisters, Mrs. Lou Blake of Detroit, Mich., and Mrs. Hattie Riseley of New York city. Funeral will be held from the Jenson and Deegan Funeral Home, 15 Downs street, on Friday at 3 p. m. Burial will be in Woodstock Cemetery.

Howard Brower, a retired mason contractor, died at his residence, 110 Manor avenue, early today. Among the surviving relatives are a daughter, Mrs. Floyd Greene; a son, Roy L. Brower, both of this city; also several grandchildren and great grandchildren. Mr. Brower had lived in the towns of Hurley and Olive for the greater part of his life. The funeral will be held from the parlors of A. Carr and son, 1 Pearl street, on Saturday at 2 p. m. The remains will be placed in the Woodstock Cemetery receiving vault at the convenience of the family. Friends may call at the parlors at anytime on Friday.

The funeral of Richard J. Murphy was held Tuesday morning at 9:30 o'clock, from the James M. Murphy Funeral Home, and at St. Mary's Church at 10 o'clock, where a solem Mass of requiem was offered by the Right Rev. Monsignor Martin J. Drury, P.R. V.F., with the Rev. John A. Flaherty as deacon and the Rev. Francis J. Molony as sub-deacon. Responses to the Mass were by the children's choir under the direction of organist Theodore Riccobono. During the days the remains reposed in the funeral home, many friends called to offer sympathy and condolence to the surviving relatives. Monday evening Monsignor Drury called and said prayers for the dead, also the same evening Kingston Council Knights of Columbus, with Grand Knight Joseph F. Saccoman, assisted the Rev. John D. Simmons in the recitation of the Rosary. At 8 o'clock St. Mary's Holy Name Society, led by President Leo T. Lynch, assembled at the home, where Father Molony assisted by the society and the friends present, recited a Rosary for the repose of the soul of their deceased member. The bearers were: Edward M. Gillen, John Murphy, Daniel Coyle, Michael Brown, Edwin Baker and Joseph Saccoman. Burial was in St. Mary's cemetery, where Father Flaherty gave the final absolution and blessing at the grave.

C. of C. Dinner Will Be Held at GovernorClinton

The annual Chamber of Commerce dinner on Saturday evening will be held at the Governor Clinton Hotel and not at the state armory as originally planned. Inability to make the necessary arrangements—securing tables, dishes, and table requirements — necessitated the change.

Former Postmaster General James A. Farley will be the speaker. Those desiring tickets may secure them at the offices of the Kingston Chamber of Commerce.

Articles Are Found In City; Two Men Held by Troopers

Several articles allegedly taken by two men now being held in Catskill were recovered in Kingston earlier this week by the State Police, it was learned today.

Investigation by Fred Knight of the State B.C.I. and Trooper Infante led to the arrests of Richard Lester Berger of New Britain, Conn., and Robert George Braynard of Freehold.

These two men, the report said, were charged with entering a gas station on Route 32, near Greenville on January 16 between 6 and 8 p. m., where they took articles valued at $335.

The men also said to have broken into another place in the Route 32 area, according to the State Police.

Articles recovered, including a battery charger and batteries, the troopers said, were sold to a local dealer for $25.

The men were arraigned before a Catskill peace justice and were held for the grand jury.

Fares May Be Raised

New York, Jan. 21 (AP)—The State Public Service Commission has granted permission to five railroads to increase their intrastate commutation, school and other multiple fares a flat 10 per cent beginning February 1. The railroads are the New York Central, Pennsylvania, Erie, Delaware & Hudson and Baltimore & Ohio. The rise—an interim arrangement—does not apply to single or round-trip fares which were increased 13 per cent last July.

New Rabbi Here

H. Z. RAPPAPORT

At recent services in Agudas Achim synagogue, Rabbi H. Z. Rappaport was installed as spiritual leader of the congregation, and director of the Hebrew school on Post street.

Rabbi Rappaport said he had planned an extensive program for the school as well as one for adult education under auspices of Congregation Agudas Achim.

Previous to coming to Kingston, the rabbi served at Congregation Sons of Israel of Jersey City, N. J. He was also director of Beth Jacob parochial institution of the Bronx and executive director of the school of higher learning of Mesifta Theological Seminary.

Rabbi Rappaport has had experience as a religious commentator over Station WEVD, New York.

In his inaugural sermon at Agudas Achim, Rabbi Rappaport said, "It is our desire to cooperate to the fullest extent with all the existing organizations to promote friendship, cooperation and to work for a better understanding between all the people in our community."

Firemen Are Called; Furnace Trouble Cause

Firemen from the Wiltwyck and Central Fire Stations were called out at 10:58 a. m., today to the two-story frame apartment house at 81 Fair street where a disengaged elbow from a heater filled the basement with coal gas but caused no apparent damage, Deputy Chief James Brett said this afternoon.

Two lines of hose were laid but neither was charged, since the firemen found no smoke upon arrival. The heat charred a wooden partition adjacent to the heater, Deputy Chief Brett said. Truck 2 and Engine 3 of Wiltwyck and Engine 1 from Central responded to the call.

Sixteen and a half million women over 14 held jobs in the United States in the fall of 1947.

Funeral will be held from the Henry J. Bruck Funeral Home, Main street, Rosendale, N. Y. Funeral arrangements later.

Seven Die in Crash

Shanghai, Jan. 21 (AP)—A transport plane crammed with 54 Chinese civilians, many of them children being evacuated from Communist-threatened Mukden, crashed near there during a blinding snowstorm yesterday and seven passengers were killed, 30 injured.

Floods and strikes destroyed over 350,000 tons of rice in Burma this year.

● ***A Big Deal for the Little Guys:***

The New York State Bowling Association is following a national trend in turning over the 1948 championships to the little guys in bowling. The sharpers will have to take their chances against the average and intermediate bowlers who will pull down hefty handicaps.

Kingston's record for entries in the city, state and national tournaments isn't something calculated to stir a civic celebration. The 1948 city championship, however, will show a hundred per cent increase over the 1947 debacle and that is encouraging.

We'd advise every bowling captain in the city to read over the following rules and regulations governing this year's state tournament. And don't forget, the event is scheduled in that paradise of sports—Brooklyn, U.S.A.

Here is your chance to cash in on some glory and folding money. Talk it over with your teammates and don't pass it up. If you want entry blanks, see Ray Cord. The Kingston Bowling Association has been assigned 10 alleys on April 24 and 25. Reservations will be awarded on a first come, first served basis and must be taken up by February 29. The tournament starts April 25.

● ***The Rules and Regulations:***

1. Handicaps are based on 75 per cent of the difference between each player's highest average for the 1947-48 season in a sanctioned league, and the tournament scratch basis score of 200 pins will be allowed in each event of the tournament, with a maximum handicap of 45 pins per game allowed any player.

2. Team handicaps for the 5-man event will be computed by adding the individual handicaps of the five players entered, and where more than five players are specified for the lineup of a 5-man team, the 5 low handicaps will be accepted to compute the 5-man handicap. Handicaps for doubles will be computed by adding the individual handicaps of the two players entered.

3. Players must submit highest average they hold at time of entry. Where an average of a player is greater than 200 pins, such player will be regarded as a "scratch" bowler and his average submitted as 200 pins only. This applies in all four events of the tournament.

● ***Fractions Are Dropped:***

4. No fraction will be accepted in the report of averages. Regardless of the fraction it must be dropped from the average and the real average, minus fraction must be reported.

5. Averages must be reported as of the date on which the tournament entry is filed, and must be computed on all games bowled by the player in the league from which his average is reported. The average must be for a minimum of 18 games. If the player entering the tournament has not bowled 18 games or more, he must accept a base average of 200. Players failing to report an average on their entry will be classified as "scratch" bowlers.

6. Cash prizes for high scores (handicap included) are record breaking viz: 5-man event, $1,500; 2-man, $600; individual event $300, all-events, $150. The regular tournament prizes in each event, and for all-events will be awarded on the basis of scores with handicap included. Only those entrants who pay the fee of $1 qualify for participation in the all-events prize fund.

● ***Scratch Prizes for Sharpers:***

7. There shall also be cash prizes awarded for the five high scores (without handicap) in each of the four competitions, except that a player or team that receives a prize for handicap scores in excess of the table below, can take only the handicap prize. The match scratch prizes are:

	5-Man	2-Man	Ind.	All-Events
1st Prize	500.00	200.00	100.00	50.00
2nd Prize	400.00	160.00	80.00	40.00
3rd Prize	300.00	120.00	60.00	30.00
4th Prize	200.00	80.00	40.00	20.00
5th Prize	100.00	40.00	20.00	10.00

8. Solid gold medals, emblematic of the championship in each of the various events or competitions, will be awarded for the first place score, without handicap, and gold-filled medals will be awarded the Handicap Winners for first place score, handicap included, in each event.

● ***Winning Team Receive Trophies:***

9. There will also be two trophies awarded for first place scores in the 5-man event; one to the team scoring high three game total without handicap; this is to be designated the championship trophy, and one to the team scoring high three game total with handicap; this to be designated the Handicap Winner Trophy.

10. The tournament will open on Thursday, April 22 and continue until Monday, May 24. Entries will close on Sunday, March 14 and for those having reserved dates, entries must be filed prior to Sunday, February 29.

MULLIGAN MIKE SAYS: This is a good deal, bowlers, the best we have ever seen. Get your entry blank early and secure a reserved date.

Middies Buried Under 65 to 39 Score in DUSO

Coach G. Warren Kias' fears about Middletown High proved to be strictly a false alarm last night.

Following a familiar format, the Maroon stalwarts survived a few anxious minutes in the first half, picked up steam and rolled over the hapless Blue and White, 65-39 for their 24th straight win.

Big Ed Weaver set the pace with 27 points and it was his nine buckets from the start of the second half to midway in the fourth period that broke the game wide open.

Statisticians went into a huddle after the final whistle and emerged with the following choice morsels:

Statisticians went into a huddle after the final whistle and emerged with the following choice morsels:

Weaver Sets Record

1. Weaver's 27 points set a new season record in the DUSO League.

2. It was Kingston's fifth conference victory and assured them of nothing less than a tie for first round honors. They play Monticello in the round finale on January 30.

3. The Kiasmen exceeded 60 points for the fifth time this season.

Get Slow Start

Like all Maroon opponents of late, the Middies played a close, crowding game designed to throttle Weaver and Rienzo and draw fouls from the Kiasmen. Kingston did commit 24 and Weaver did have his trouble in the first half but after the halftime break the Maroon was invincible.

Kingston opened up a 12-8 lead in a bitterly fought first quarter and was in front 27-20 at half. When Weaver began pinpointing the bucket with rebounds and layups, the game assumed a definite Maroon tinge and the locals moved in front 44-20, reeling off 17 consecutive points before the Middies could score. Coach Kias immediately pulled the varsity and cleared the bench of subs. The Middies scored 19 points in the final quarter only to be outscored by Kias' mixture of future greats.

Rienzo was runnerup with 13 points and Ken Lowe continued to stay in double figures with six buckets. Cook had 11 and Kindberg 10 for the Middies who cashed in on 13 out of 24 foul attempts.

Legionnaires Face Hawaiians Tonight

Ottos Stop Chez Emile

Chez Emile fortunes in the Y Basketball League continued on the decline last night when the inspired Kerhonkson Clippers gained a 36-35 decision over the Chezzies.

As a result, Sickler's Delivery is out in front at the end of the first half with eight wins and one loss, with Chezzies and Clippers tied for second, one pace behind.

Chez Emile dropped their second straight in a dull, defensive battle in which Kerhonkson led 21-19 at the half. "Snitz" Houghtaling of the losers was high scorer with 15 points. B. Terwilliger hit 10 for the Ottos.

Wiltwycks Win 51-30

Wiltwyck Motors romped over Governor Clinton Hotel by the surprising margin of 51-30 with a well balanced scoring punch. Nielus was high with 11 markers. G. Fitzgerald and C. Marable tallied 8 apiece for the Hotel.

V.F.W. bagged a rare victory in overtime against Potter Brothers, 27-25. Van Wagenen was top scorer with 7 points. B. Nussbaum scored 8 for the losers.

70 Days of Harness Racing at Saratoga

Saratoga Springs, N. Y., Jan. 21 (AP)—The Saratoga Harness Racing Association has scheduled 70 early closing harness races with $177,900 in purses for the 60-day summer meeting, starting June 21, at the Saratoga raceway.

The association announced yesterday that the second week of grand circuit racing, July 19-24, would feature four $10,000 purses, including the Bostwick for two-year-old trotters, the Saratoga for three-year-old trotters, the Arden, a free-for-all trot, and the Empire State, a free-for-all pace.

The grand circuit's list for the first week lists the same four classifications with $5,000 purses.

Jack's Shatter 22-Game Colonial Tenpin Streak

The longest winning streak in local major tenpin circles in several years came to an end in the City League Monday night when Jack's Restaurant swept three straight games from the slightly torrid Colonials.

The streak suffered an abrupt demise at 22 straight on the famous graveyard drives, 9 and 10, at the Central Recs.

It was a low scoring duel in which neither side distinguished itself, although Jack's managed a 2745 series. Ray Roux of Jack's was high man with 589.

Broskie Hits 226

Hal Broskie, the hottest bowler in town, went from 137 to 226. Lew Hymes posted 200-205-576 for the Colonials and Larry Petersen 207. Roux's series was 206-205-178 and he furnished a crucial double in the second game. Larry Weishaupt shot 224-576.

Schneider's Jewelers tripped Bull Market, 2-1, the beef trust scoring a surprise 971 to cop the middle set. E. Robinson starred for Bull Market with 200-221-184-605 and C. Bowser posted 219. "Hod" Spaulding pounded 234-594 for Schneider's and Randy Kelder 211.

With Gil Sampson shooting 218-596, Jake's Grill shut ut Mickey's. Not a member of the Mickey's was able to negotiate a 500 series. Jones Dairy shot an effective 2770 on the Immanuels drives for a sweep over Immanuels. High scorers: Al Kieffer 203; Harry Smith 207-569; Bill Kuehn 200-192-201-593; Ad Jones 236-546. Bill Thiel 211-171.

Hoffman Cracks 630

High honors in the league went to Joe Hoffman, the former baseball star who piled up enough sticks for a couple of years of good batting averages—639—with 232, 191 and 216. Bill "300" Winslow had 225 for Central Hudson. Ken Williams led Livingstons with 203-561.

Peace Mission?

Mexico City, Jan. 21 (AP)—Walter W. Mulbry, assistant to Baseball Commissioner A. B. Chandler, was expected to arrive here today for a series of conferences with Alejandro Aguilar Reyes, commissioner of the outlawed Mexican League. Reyes declined yesterday to reveal the nature of the conference but sports commentators predicted Mexico's return to organized ball.

Conerly to N.Y. Giants

New York, Jan. 21 (AP)—The greatest passing combination in modern college football—Mississippi's Charley Conerly and Barney Poole—was included today in the comeback plans of New York's faltering grid Giants.

Bidding for an offense that would rocket them from the National Football League basement, where they finished last fall, the Giants acquired the draft rights to Conerly yesterday in a deal with Washington's Redskins.

The New Yorkers, who already won draft rights to Poole, traded halfback Howie Livingston and another player yet to be named to Washington for the privilege of going after the services of the 24-year-old, rifle-armed Clarksdale, Miss., star who smashed all-time college passing records last fall.

The Giants still must outbid the Brooklyn Dodgers, who drafted Conerly in the rival All-America Conference.

If able to land the Mississippi Tandem—Poole has another year of eligibility although his class had graduated—, the New York team would boast two of the classiest aerial combinations in all football.

They already have Paul Governali, the former Columbia All-America who is rated one of the top tossers in the pro game, and only recently signed Columbia's brilliant All-America pass-receiving end of 1947, Bill Swiacki.

Lujack Still Free Agent

Chicago, Pan. 21 (AP)—The "big contract party" slated for today at which All-America Quarterback Johnny Lujack of Notre Dame was expected to come to terms with George Halas, owner coach of the Chicago Bears football club, has been postponed but Halas says "I still hope to sign Johnny."

Halas said he had talked to the Irish star last night, "but no definite settlement was reached."

The Chicago Tribune in a copyright story last Saturday said Lujack had been signed by Halas two weeks ago to a three-year contract, paying $18,000 a season and a $5,000 signing bonus. The newspaper added the deal would be announced at a "big contract party" today.

Both Halas and Lujack, who also is being sought by the Chicago Rockets of the rival All-America Conference, denied the signing.

Crack Island Cagers Clicking In U. S. Games

The Kingston Legionnaires extend a cordial invitation to local basketball fans to jampack the municipal auditorium tonight for the first appearance of the famous Hawaiian All Star squad.

But don't bring your leis. The Hawaiians will have them, hulas and basketball, too. Game time is 9 o'clock.

The colorful (no pun intended) island aggregation which left Honolulu on January 6 has been winging across the country meeting college and independent opposition and from all accounts are a capable squad.

Legionnaires Eager

Andy Dykes' cagers will welcome the return to municipal auditorium after the horrors of several road games. In the friendly confines of the auditorium, the Legionnaires are virtually unbeatable. On the road it's a different story.

The Hawaiian press agent says the islanders have a good club notwithstanding the absence of Johnny Pineapple. The improvement of the Hawaiians is attributed to the addition of two newcomers, Bob Young, 6 ft., 3 in. and George Yomes, 6 ft., 4 in. These players are getting the ball for their teammates, something that the little men couldn't do last year.

Strong Defensively

The tub thumper says the Hawaiians are getting an even break at the pivot position and with such scoring threats as Chick Myashiro, 5 ft. 6 in., Wally Tome, 5 ft. 9 in., and Hank Miji, 5 ft. 7 in., they are bound to give any club plenty of trouble.

Jocko Lindsey, Harold Yee and George Holey are a trio of guards that furnish stout defensive power in the backcourt.

George Bloom, high scoring center who missed the last few games, is expected back at the pivot post tonight. The speedy pivot is moving along at a good scoring clip.

The usual preliminary is included on the program.

The tentative lineups:

Legionnaires		Hawaiians
Ruzzo	f	Myashiro
Murphy	f	Tome
Bloom	c	Yomes
Bock	g	Lindsey
Lindhurst	g	Holey

Taxation Blues

Work, work, work, I'm always on the job
With courage and will to do my best
But working every day doesn't seem to raise my pay
Enough to permit me a needed rest
Work, work, work! But it's no use!
I've got the taxation blues!

Tax, tax, tax! It comes in threes—
Local, state and nation;
There's no escape from the greedy ape
Before-hand on taxation!
RADIO and PRESS condemn the abuse
With most appropriate words;
But the problems involved apparently are resolved
To line us war lords
There's no change in the news!
I've got the taxation blues!

Expansion and invasion
Are the inflationary twins
That cause higher taxation . .
And polluted sins
No more can hope to survive
All the evils of a maladministration . .
Not even when as a good American,
He honors his share of taxation!
From me hat to my shoes . . .
I've got the taxation blues!

We believe in GOD, Country and OLD GLORY.
We believe in Democracy and the Ballot Box.
In the good neighbor policy; but no global follies!
We believe preserving our resources at Fort Knox!
We believe in work, unions, thrift and peace;
We believe in charities, loans and a union of Democracies.
We believe in taxation without dissipation
Of our natural resources and conservational policies.
But don't change our Eagle into a Goose
Fathered with taxation blues.

L'Envoy

The continued tax, tax, tax plan
Of our national administration,
Will prostrate every American,
And the life-line of our nation.
That's why from hat to shoes
I shake with Taxation Blues.

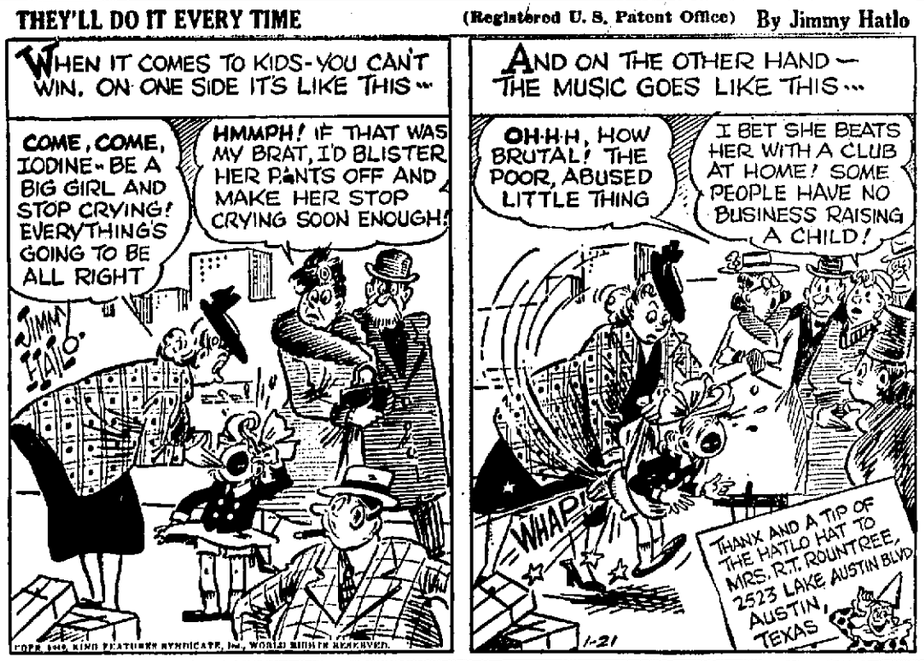
THEY'LL DO IT EVERY TIME

(Registered U. S. Patent Office) By Jimmy Hatlo



WHEN IT COMES TO KIDS-YOU CAN'T WIN. ON ONE SIDE IT'S LIKE THIS···
COME, COME, IODINE-BE A BIG GIRL AND STOP CRYING! EVERYTHING'S GOING TO BE ALL RIGHT
HMMPH! IF THAT WAS MY BRAT, I'D BLISTER HER PANTS OFF AND MAKE HER STOP CRYING SOON ENOUGH!
JIMMY HATLO
COPR. 1948 KING FEATURES SYNDICATE, Inc., WORLD RIGHTS RESERVED.
AND ON THE OTHER HAND— THE MUSIC GOES LIKE THIS···
OH·H·H, HOW BRUTAL! THE POOR, ABUSED LITTLE THING
I BET SHE BEATS HER WITH A CLUB AT HOME! SOME PEOPLE HAVE NO BUSINESS RAISING A CHILD!
WHAP!
THANX AND A TIP OF THE HATLO HAT TO MRS. R.T. ROUNTREE, 2523 LAKE AUSTIN BLVD AUSTIN, TEXAS
1-21

Business man (to office boy)—If anyone comes in and wants to see me and says it's important, just say, "That's what they all say."

Lady—I wish to see Mr. Smith. I'm his wife.

Boy—That's what they all say.

Funny how many good theories get killed by putting them into practice.

The man who keeps everything for himself dies a pauper. Those who would enrich themselves must begin by enriching others.

Five-year-old Mary was teaching three-year-old Audry the value of different coins: "That's a dime; it will buy lots of candy. That's a nickel; it will buy an ice cream cone. That's a penny; it's only good for Sunday school!"

It pays to be honest, but, apparently, not enough for some men.

Emily had been to school for the first time.

Mother—Well, darling, and what did you learn?

Emily—"Nuthin. I've got to go back tomorrow.

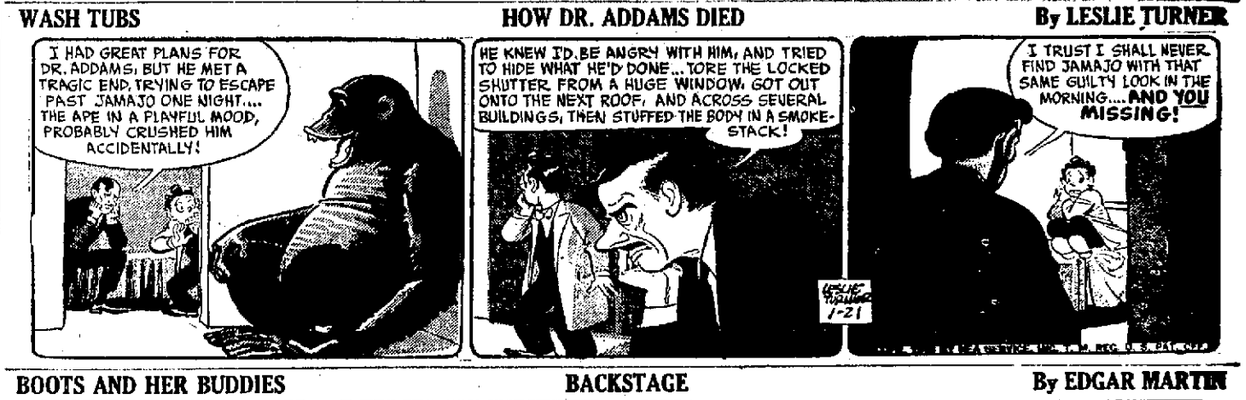
HOW DR. ADDAMS DIED

By LESLIE TURNER



I HAD GREAT PLANS FOR DR. ADDAMS, BUT HE MET A TRAGIC END, TRYING TO ESCAPE PAST JAMAJO ONE NIGHT.... THE APE IN A PLAYFUL MOOD, PROBABLY CRUSHED HIM ACCIDENTALLY!
HE KNEW I'D BE ANGRY WITH HIM, AND TRIED TO HIDE WHAT HE'D DONE... TORE THE LOCKED SHUTTER FROM A HUGE WINDOW, GOT OUT ONTO THE NEXT ROOF, AND ACROSS SEVERAL BUILDINGS; THEN STUFFED THE BODY IN A SMOKE-STACK!
I TRUST I SHALL NEVER FIND JAMAJO WITH THAT SAME GUILTY LOOK IN THE MORNING.... AND YOU MISSING!

Schoonmaker, late of the City of Kingston, County of Ulster and State of New York, deceased, as creditors, legatees, devisees or otherwise,

GREETING:

YOU AND EACH OF YOU ARE HEREBY CITED TO SHOW CAUSE at a Surrogate's Court to be held in and for the County of Ulster at the Surrogate's Office in the City of Kingston, N. Y., on the 23rd day of February, 1948, at ten o'clock in the fore*noon of that day why the final account* of proceedings of Alberta B. Schoonmaker, John D. Schoonmaker, Jr., and Philip Elting, now deceased, as Executors of the last Will and Testament of John D. Schoonmaker, deceased, should not be judicially settled and allowed upon the Petition of said Alberta B. Schoonmaker and John D. Schoonmaker, Jr., and why such other or further relief should not be granted in the premises as may be just and proper.

IN TESTIMONY WHEREOF, We have caused the seal of said Surrogate's Court to be hereunto affixed. WITNESS, [L. S.] Hon. John B. Sterley, Surrogate of our said County of Ulster, at Kingston N. Y., this 19th day of January, 1948.

H. LeROY GILL,
Clerk of Surrogate's Court.

TOWN OF ULSTER
SUPERVISOR'S REPORT FOR 1947

To the Town Clerk, the Justices of the Peace and the Councilmen of the Town of Ulster, in the County of Ulster, State of New York:

Gentlemen:

Players Want Reserve Clause, Says Spokesman John Murphy

Boston, Jan. 21 (AP) — Johnny Murphy, soft spoken veteran big league pitcher who now scouts for the Boston Red Sox, insists that professional ball players want the reserve clause in their contracts.

He will so testify tomorrow at the State House when a Massachusetts legislaive committee considers a bill which would make unlawful inclusion of such a clause in contracts.

The measure was filed at request of Robert Murphy, whose efforts to organize ball players into a guild are virtually dead even though they did result in such gains for the big leaguers as pensions, minimum wages and certain expense allowances.

The bill would "prohibit employment contracts in which the employers reserve the right to sell or exchange the personal service of an employe, or to renew contracts of employment without the employe's consent."

Okayed by Players

In non legal language that means a player would be free to sell his services on expiration of his current contract and could not be sold without his consent.

Johnny Murphy, top relief pitcher for many years for the New York Yankees who wound up his active career with the Sox, is strongly opposed to such ideas. "So is Dixie Walker of the Pittsburgh Pirates who will be here as representative of the National League," added Johnny.

Carrying a brief case filled with minutes of meetings of the players' committee, Johnny explains the players helped draft the contract now in use "and it contains the reserve clause."

He reasons this way: "The players realize the keynote of the game is competition * * *. No club can tamper with a player on the reserve list of another club, and a player who has signed a contract cannot, while he is under contract, negotiate for another contract with another club.

Junior Basketball

St. James drubbed St. Joseph's, 65-34, and Baptist Chapel won over St. Peter's 32-23, in Junior Church League basketball games yesterday.

Van Wagenen of St. James was high scorer of the day with 17 points.

The scores:

St. Joseph's (34)—Kaman f 14; Mulligan f 2, Roach f, Titus c 4, Edwards g 7, Ruzzo g 5, Haggerty c 2.

St. James (65)—Ebelheiser f 10, Goercke f 15, Van Wagenen c 17, Blume g 9, Tseoro g 3, Boolukas g 8, Higgins, Havens g 3.

Baptist Chapel (32)—Henville f 16, Jeffrey f, Harris f, Mitchell c 6, Maybrook g 6, Hampton g 4.

St. Peter's (23)—L. Smith f 12, R. Smith f, J. Koenig c 4, Roach c, Harold, Lamoreaux g 3, Sickler g 4, Murphy g 4.

Bowling Scores

Dot Rawding, the powerful Mayorette "middle man" set a new high single record for the Emerick Ladies League last night with a rousing 245 and her 578 triple sent her skyrocketing into second place in the individual averages, only a few pins behind the league leader, Marge "Dutchess" Jansen.

The big 245 came after opening scores of 179 and 154. The Mayorettes cracked a hefty 2520, only six pins off the league record held by Sam's Restaurant.

The celebrated wanderer rolled 162-191-169-522 and Reta Frederick knocked off 205-509. Lillian Buswell rolled 195-505; Evelyn Dolson 199-524; Rose Mellert 183-487; Fran Kelder 172-505; Jo "Secretary" Smith 185-506; Cora Emerick 176-481; Etta Ginder 169-483; B. Schaller 216-527.

J. Singer Tops G.N.L.

Jack Singer's 218-552 topped a dull scoring session in the Good Neighbor League where "500" triples came scarce. Rube Leventhal clicked 190-515; J. Burns 200-531; Ed Rhymer 197-534; Irv Adner 224-517; George Goldfarb 212-535; A. Werbalowsky 203-487.

Ellis Smashes 665

Rocky Ellis was back in the high score groove in the Central Rec circuit, smashing the uprights for a towering 665 on scores of 243-231-191. It was one of the best triples in the circuit this season and enabled Stein's to trip Smith Avenue Storage, 2-1.

Other effective scoring in the loop: Stan Warren 210-517; Stan Winne 211-213-583; J. Altamore 209-527; R. Leventhal 201-540; S. Woyden 220-528; Jack Martin 233; J. Murphy 205-520; P. Ferraro 215-566; "Pop" Auchmoody 203-516.

Schussler High in Y

Eddie Schussler's 212-554 were high marks in the Y National division and W. Gray accounted for the only other "500" score with 181-512. All others were under the coveted mark.

Children Take Music Seriously

Two of Kingston's children take advantage of the public school music instrumental program which is now being intensified to develop orchestra and band material. Miss Jacqueline Burhans, 10 years of age in the fifth grade, began her lessons on the French horn last week. This is one of the unusual and most difficult instruments to play and is rarely chosen by grade school students, instructors report.

Frank H. Reis, age 11, sixth grade, has chosen the drum and is shown working with the practice pad, which doesn't make so much noise and has the same bounce as a drum head. He has had some private lessons but began in the fall with serious study in the school program.

Robert Van Valkenburgh (standing) band instrument instructor in the city's schools is shown with his pupils. Parents are asked to encourage their children to study musical instruments as part of an all-round education and enjoyment. Registrations for new pupils will be made at the beginning of the next term early next month. Tentatively the instructors are starting with pupils in the fifth grade and up.

The photo was made by the Freeman photographer at School 7, Crown street.

Music in Kingston Schools

(Following is the first in a series of articles concerning the instrumental department of the city's public school music system. Information for the articles is being gathered and written by Mrs. Caroline M. Seitz of the Freeman's editorial staff.)

The plight of public school instrumental music in Kingston has been perched precariously for a year and became most noticeable to the public during the football season of 1947, when the K.H.S. band was hardly the band of former years. The school orchestra ensemble which appeared at last year's Senior play was not considered good enough to be included as usual in the commencement program last June.

Endeavoring to stem the tide of disregard, indifference or whatever, the music department, which is under the supervision of Leonard Stine who devotes all of his work to vocal music, now has two men diligently working with the young people in the city's schools to develop instrumentalists. Roy A. Edelfelt teaches strings and orchestra and Robert Van Valkenburgh, the band instruments. Mr. Edelfelt came to Kingston in October 1946 and Mr. Van Valkenburgh last September.

Consensus is that consistent training is necessary to build organizations for public performance. Parents are asked to encourage, even with a little force if necessary, children to play and practice instruments. Especially, they are asked to bear with the young people through the first weeks of sour notes.

'Children Missing Fun'

"The children are missing so much. You can't tell most of them that instrumental music is fun," says Mr. Van Valkenburgh who found his first interest in music while he was a pupil at School No. 6 when Miss Eva Clinton (now Mrs. Daniel J. Wright) was teaching band instruments.

"Children are children, they don't have the mature outlook," he continued in a recent interview. "They should be made to stick at an instrument at least six months, better yet a year. After the child has had a chance to learn to play a little something, he usually will like it. Two or three months is only the beginning. Stopping after that length of time is not giving the instrument or the child a fair chance."

180 Are Studying

Registration for the term ending was made last fall. Aptitude tests followed when the instructors attempted to learn what instruments were best suited to the different children. The parents were informed and as a result about 180 players are now studying in the school system. New registrations will be taken next month.

Change of Teachers

Probably one main reason for the slump in the instrumental program was the change over of teachers in the grade schools during the past ten years, according to Mr. Stine. Miss Clinton came to the city schools in October, 1933, and stayed until September, 1939. She had six years of foundation laid especially for band instruments.

About the Band

It was during her teaching that the band at K.H.S. came to its own in the fall of 1936 when it played at all of the football home games, A.A. circus, May Day, gave a concert for the first time, December 8, 1936, and bought its uniforms. Mr. Van Valkenburgh, present instructor, was a member of this organization.

At that time the band practiced before school, 8 a. m., two mornings a week. Some gentle urging for band participation was given by editorials in Dume Rumor, K.H.S. paper, when students were asked, "Have you the grit to come to practice two mornings a week? . . . continuous drill and rehearsal are necessary before there are any tangible results . . ." and after its successful season in 1937, "it is an organization in this school to which we owe much of our new school spirit! It is to this group that Dame Rumor expresses, for the students of K.H.S., their appreciation. OUR BAND!" In 1938-1939 the band with 57 members was considered the largest in the DUSO League.

Following Miss Clinton's resignation in 1939, Miss Eleanor Lawatsch (now Mrs. Harold Akeley) was employed to teach vocal and string music in the grade schools while Kenneth Appleton was engaged to teach band and band instruments. Miss Lawatsch left in September, 1942, to marry. Mr. Appleton entered military service in November that year. Anthony J. Messina came in December, 1942 and stayed until December, 1946, teaching band and band instruments. He was followed for six months by George Coszenza and Mr. Van Valkenburgh last fall. In the meantime Michael Franko had been employed in September 1941 to teach orchestra and strings. He left in June, 1943. The following September Miss Helen Loughran (ndw Mrs. Amos Newcombe) was engaged to teach strings. She left in June, 1946, to marry and Mr. Edelfelt was engaged in October, 1946, to teach orchestra and strings.

The band did flourish through the war years at Kingston High School under Mr. Appleton and Mr. Messina. The greatest number of players according to records in the Maroons, school year books, was in 1943 when 81 students were registered with Mr. Messina. It met after school and each member received one lesson a week. The instrumentation included first, second, third cornets; French horn, drums, sousaphone, first and second flutes; trombone, first, second and third B-flat clarinets; euphonium, string bass, piano, tympani, bells, bass clarinet, oboe, bassoon, tenor saxophone, first and second E-flat alto saxophones; and baritones. A band music council was elected by the group to assist in supervising the band activities.

(The next article will tell about the present schedule of music in the schools.)
